

All I Need (Is You)

Words and Music by Loren Jay Gough (c) 2012

The look in your eyes is like nothing I've ever seen
The feel of your touch takes me places I've never been
The sound of your heartbeat the feel of your breath on my cheek
Oceans away - worlds apart, here you are mine to keep

And all I need is you

Some days are Mondays and Mondays for some last all week
My days are Sundays and fun days ain't it sweet
As I lay beside you embraced by the warmth of your skin
Still swept away - more alive than I've ever been

And all I need is you

They say love's a game played by dreamers and by fools
I'll keep on dreamin' and don't care if I play the fool
'Cause all I need is you

All I need... is you.
